Summary

I'm living the dream.

I've always been a great problem solver, an independent introvert, and a technophile obsessed with the latest devices. Today, I'm working as a senior software engineer for Coforge, and I get to show off all these elements of who I am.

I started learning to code when I was in my first year of college, though it was always more of a hobby than a career focus. After a college education in Civil Engineering, and continuing to pursue that hobby, I realized software engineering was the right field for me.

Since then, I've worked for freelance projects and have been involved with startups. Today, I'm working as a senior developer with the amazing team at Channel4 (UK), and am getting into machine learning on my own time.

I'm familiar with a variety of programming languages, including JavaScript, Typescript, HTML, CSS, NodeJS, Python, LangChain, LLM, VueJS and ReactJS, but I'm always adding new skills to my repertoire. I'm also eager to meet other software engineers in the area, so feel free to connect!

Experience

Coforge

Senior Software Engineer

April 2023 - Present (1 year 7 months)

Uttar Pradesh, India

Coforge

Senior Software Engineer

September 2021 - December 2022 (1 year 4 months)

Noida, Uttar Pradesh, India

* I have worked as a full stack developer using framework VueJS and in .Net core APIs as support work in agile environment in the product of sabre in travel domain.

* I am working as a FrontEnd Developer utilizing React, TypeScript, Nx, and Pnpm in a project to create a scalable and efficient front-end application. React provided the framework for building reusable components, while TypeScript added a level of type safety to the codebase. Nx is a set of extensible dev tools, that allow for streamlined management of multiple applications and libraries within the project. Pnpm is a fast and efficient package manager, ensuring quick and reliable dependency management.

Cliffex

Software Engineer

June 2020 - August 2021 (1 year 3 months)

India

I have worked on Frontend as well as Backend using React.js and Node.js with postgresql and also used Next.js for server side rendering.

Technosutras

Frontend Developer

July 2018 - June 2020 (2 years)

New Delhi Area, India

I have worked mostly on Frontend development using React.js and vanilla.js on domains like travel, hospitality etc and made service for scraping data from many sites simultaneously using Node and mongo.

Education

Dr. A.P.J. Abdul Kalam Technical University

B.Tech , Civil Engineering · (2014 - 2018)

Holy point academy, Etawah

Intermediate college, Science · (April 2012 - March 2013)

St. Mary's Inter college, Etawah

High school · (April 2010 - March 2011)
